Description

This necklace is inspired by the colours and landscapes of the Gulf of Naples and it is made of organic, hand painted wool. The fabric is rolled up with reused paper and then baked in the oven for 5 hours in a mixture of vinegar and water which then turns into steam. This method sets the colors and it is applied using electricity from renewable sources. Inside there are felt balls made in Nepal with local wool by small fair trade company that Bettina is happy to support. The pearls are made of Murano glass. With this item you will recive a hand-crafted bag with the brand's logo, a leaflet that talks about the work and philosophy of Bettina Buttgen and another leaflet that shows you you the many ways in which this item can be worn.
